"Mr. Wizard" Electrical Lightning Show
Crazy About Chemistry
Matter And Energy
Astronaut Andy (Magic Show, including Space Mouse)

Hi, I'm Walt from Full spectrum Entertainment

I've been a full time performing magician (flaming wallet looking for a card) for the last 25 years, and was a kids science teacher for 7 years.

The goal of every presentation we do is to get the kids excited and asking YOU questions!

This is like a mad passion for us, and as I'm sure you know, we are excited to pull out all the stops for you, and bring a really compete experience your audience will remember for life.

Our show includes real lasers, music, GIANT magnets and big exciting sparks!

We've performed for groups as small as 30, and on stages for more than 1000 wonderful students!

My setup time for the full show is 45 minutes, so given today we each have 5 minutes, I only just brought one small item.

Bring Space Mouse, Flaming Wallet, Electrostatic Wand, Wimshurst...
